What's New @ Ames Services

Ames Services, LTD. offers a new approach to going green and being environmentally friendly by opening the "South Londonderry Yard Waste and Composting Center", located at 244 Hinkle Road in Annville, Pennsylvania.

The 4 acre facility will offer yard waste pickups to homeowners and neighboring municipalities as well as regular facility hours to accommodate drop offs of green waste. You do not need to be a South Londonderry resident to schedule a pickup or drop off green waste. Daily loading hours for the facility are Monday- Friday 7:30 AM- 5:00 PM and Saturday 9:00 AM- 3:00 PM. Items that are accepted include the following: leaves, shrubbery clippings, branches, silage, manure, tree trimmings, grass clippings, food waste, straw, garden residue and old hay. Food waste will only be accepted in a sealable container. Green waste tipping fees for drop off are dependent upon vehicle weight. Pricing information can be obtained by calling (717)838-8387. Mulch is available in a variety of colors including black, brown, red and organic. Black and brown mulch is available for delivery and installation for \$75.00 a cubic yard. Customers have access to this high quality mulch at a 5% discount. Compost and high quality soil will be available for pickup or delivery.

Equipment to be used include but are not limited to Kubota ® Diesel tractor M7040, HCL 10' Compost Turner, Aeromaster® WT-1775 Water Wagon, Aeromaster® WT Series Water Tank & Inoculation Units. The proposed composting method will be MidWest Bio Windrow Composting System. MidWest Bio Systems is best known for its ability to produce very high quality humus compost that has a powerful impact on soil fertility. Combining our HCL compost turners with our Advanced Composting System (ACS) methodology, we know how to produce the highest quality compost end product available on the market today. Finished compost is available approximately every 70-100 days.

All compost product that is produced will be marketed as bagged compost to local homeowners or bulk product to produce growers, golf courses and commercial gardeners. Bagged product will also be sold by retail locations and outlets. As part of the program, Ames Landscaping Division will be recycling their clippings, leaves and trimmings back into the environment as high grade topsoil/ compost to their customers.

Future plans include a retail outlet for lawn and garden materials including sand, lime, stone dust, fertilizers, landscaping blocks and other landscaping materials.

"What's Your Problem?"

PROBLEM: The restrooms in your facility continue to have a lingering odor even after they have been cleaned.

SOLUTION: Ames Services can treat and eliminate odors and stains caused by the build-up of uric acid from pipes and urinals by using *urine OFF*® a High-Powered Bio Enzymatic Technology cleaner.

PROBLEM: After you rake up all the leaves and debris in your yard this fall you will need to dispose of it.

SOLUTION: Ames Services owns and operates the "South Londonderry Yard Waste and Composting Center", located at 244 Hinkle Road in Annville, Pennsylvania. (See front page for more information)

PROBLEM: You're moving and need to have your former location cleaned or your new location cleaned and ready for move in.

SOLUTION: Whether you're moving into or out of a new home, office building or apartment, Ames Services performs comprehensive Move-Out/Move-In cleans to your specifications.

Employee Spotlight

Janet Boozer
Commercial Cleaning

Janet Boozer joined the Ames Services Team in December 2009, she is a true asset to our company and to the world. Janet recently traveled to Zambia with her Church, New Life Church of Hershey. While staying in Zambia, Janet and her fellow missionaries addressed the needs within the community, including assisting local schools, aiding with basic medical needs and providing spiritual support.

Janet is a true inspiration to all of us and we are so humbled by her generosity.
